Lo svuotamento della materia, la riduzione sintetica della struttura lungo le linee tensionali, "nervose", organiche della scocca in polietilene, genera una sedia eterea, basata più sul vuoto che sul pieno, realizzata sia con gambe che con slitta.

Un etereo quadrifoglio ritagliato dal piano in HPL e sospeso su steli metallici che lo fanno librare leggero.

Un tavolo impilabile, anticonvenzionale, capace di convivere con la storia, di interpretare il presente, di sognare un futuro.

The emptying of matter, the synthetic reduction of the structure along the "nervous", stress lines, the organics of the polyethylene body, generate an ethereal chair, based more on being empty than full, realized with legs or slide.

An ethereal four-leaf lover cut out of the HPL top and suspended on metal stems that make it lightly glide.

A stackable, unconventional table, capable of living in harmony with history, of interpreting the present and dreaming the future.

Abbiamo cercato di coniugare in&outdoor uscendo dalle forme classiche traendo come forma di ispirazione una "navicella spaziale" e il primo sbarco sulla luna.

Linee decise, figura semplice, senza perdere di vista gli aspetti pratici del trasporto e dell'archiviazione, che permettono di sistemare due pouf nell'ingombro di uno, grazie alla sua simmetria.

Se capovolto, Mr Lem diventa base di un simpatico tavolino con piano in vetro o HPL.

We have tried to join in&outdoor by abandoning the classic shapes using a "space ship" and the first landing on the Moon as inspiration.

Decisive lines and simple shape, without losing sight of the more practical aspects tied to transport and placement, which enable putting two poufs in the space of one, thanks to symmetry.

If turned upside down, Mr Lem become a funny base a table with glass or HPL top.

Non essere vaso, ma anche esserlo nella sua essenza/assenza non è un dilemma intellettuale, ma un'idea aperta a infinite possibilità.

Il vuoto come spazio libero, svincolato dalla tristezza della materia, ispiratore nella forma, surreale ma presente, concreto e reale.

Lampo di intuizione per ampliare la percezione: dentro, oltre, attraverso. Ma non era un vaso?

Not being a pot, but also being it in its essence/absence: not an intellectual dilemma, but an idea opened to endless possibilities.

The emptiness as a free space, free of the sadness of the matter, with an inspiring form, surreal but present, concrete and real.

Eureka moment to extend the perception: inside, over, through. But wasn't it a pot?

Skin è una famiglia di vasi dalla forma lineare, il suo fascino si cela dietro la sua texture che scatena il desiderio di sfiorarli.

L'esclusiva finitura trae ispirazione dall'osservazione dei particolari di cui vive l'ambiente naturale, che rivela dettagli e geometrie apparentemente invisibili ma non insignificanti: ogni cosa ha una sua pelle.

I vasi Gem si ispirano al taglio delle pietre preziose, dal micro al macro, giocando sul filo dell'esagerazione.

Oggetti dove il dettaglio di un segno solitamente microscopico diventa l'elemento distintivo che caratterizza l'intera collezione in tutti i suoi formati. Arredi la cui presenza monolitica e raffinata diventa protagonista riuscendo ad adattarsi in maniera quasi camaleontica agli stili di ambienti più diversi.

Oggetti allo stesso tempo eleganti o informali, per interni o esterni, per uso domestico o contract capaci di valorizzare con la loro presenza qualsiasi contesto.

Gem pots are inspired by the cut of precious stones, from the micro to the macro, playing on the edge of exaggeration. Objects where the detail of a usually microscopic sign becomes the distinctive element that characterizes the entire collection in all its formats. Furniture whose monolithic and refined presence becomes the main character, managing to adapt in an almost chameleonic fashion to the styles of different locations. Objects that are at the same time elegant or informal, for indoor or outdoor, for home or contract use, able of enhancing any context with their presence.

L'idea è di creare una sedia per bambini che sia anche gioco.

Un portacasco da parete con un vano vuota tasche e un gancio appendiabiti. Per gli amanti della moto, siano motociclisti professionisti o studenti al loro primo scooter, il casco è un elemento personale importante quanto la moto stessa e per questo si merita un luogo speciale dove venire riposto.

For motorbike lovers, whether they are professional motorcyclists or students with their first scooter, helmets are an important personal element just as much as the bike itself and for this reason they deserve a special storage place.

EX CE LL EN CES

Se una filosofia è differente all'originale, differente sarà in tutte le sue variazioni e sviluppi. NON è un semplice teorema matematico, ma la semplice enunciazione della vision MYYOUR: uno scarto e uno scatto sempre oltre l'ovvio. una tenace sfida al pensiero immobile sostenuta da una solidissima padronanza dei materiali, dalla quale si sprigiona sempre la scintilla dell'idea. Da qui la continua evoluzione riguardo la ricerca di nuovi materiali e nuove finiture, per essere sempre un passo avanti e riconosciuti come eccellenti.

If a philosophy is different from its origins, different will be its variations and changes. It is not a math theorem, but simply Myyour vision: a gap and step forward from evidence. An hard challenge to the immobile thought, supported by a strong control of material where any idea spark always come from. Hence the continuous evolution regarding the search for new materials and new finishes, to always be a step forward and recognized as excellent.

YY[®]

Non sono solo il design e le tecnologie a fare la differenza nei prodotti MYYOUR: anche per quanto riguarda i materiali l'azienda padovana oggi è in grado di esprimere il massimo grazie a un nuovo polietilene speciale denominato Poleasy, messo a punto attraverso un lavoro di ricerca durato anni con l'obiettivo di eliminare quelle microporosità superficiali responsabili della formazione di antiestetiche patine e, nel tempo, anche di possibili fessurazioni.

Poleasy, risolve definitivamente il problema garantendo alle creazioni MYYOUR superfici più compatte e performance davvero uniche in fatto di durata, lavabilità e brillantezza dei colori.

Design and technology are not the only factors that make the difference in MYYOUR products: also because, as far as the materials are concerned, this company, which is based in Padua, Italy, is able to fully express itself thanks to a new and special type of polyethylene called Poleasy.

Poleasy was developed after long years of research. In fact our research was focused on finding a way to eliminate the microporous surfaces that are responsible for the formation of anti-aesthetic patinas or cracks over time.

Poleasy, has entirely solved this problem by ensuring compactness to the surfaces of MYYOUR's creations and a better performance in terms of durability, washability and color brightness.

OXI DI ZED

La continua ricerca ed evoluzione porta MYYOUR a scoprire sempre nuovi orizzonti. Il different concept diventa different finishing: MYYOUR presenta l' "ossidato" nei colori rame e ruggine.

L'accurata lavorazione, che mette in simbiosi due materiali chiaramente agli antipodi, prevede l'utilizzo di particelle di ferro come rivestimento, il cui processo di ossidazione viene attivato da prodotti specifici e bloccato da un'apposita vernice trasparente, che ne permette l'utilizzo all'esterno. Così facendo il materiale plastico trasforma la sua natura diventando metallico. Inoltre, essendo il procedimento di ossidazione eseguito manualmente, ogni articolo è unico.

The continuous research and development leads MYYOUR to discover new horizons. The different concept becomes different finishing: MYYOUR presents the "oxidized" in the copper and rust colors.

The careful manufacturing, which puts in symbiosis two materials clearly poles apart, involves the use of iron particles as a coating, whose oxidation process is activated by specific products and stopped by a special transparent varnish which allows the outdoor use. In this way the plastic material transforms its nature becoming metal, it is evident in the fact that a magnet is attracted to it. Since this is a purely manual processing, makes each item different and unique.

Modi angolo Modi corner

Modi nasce con la volontà di interpretare lo spazio dentro e fuori casa.

Caratterizzato da quattro moduli: seduta, bracciolo/schiena, angolo e piano in vetro, si trasforma in varie configurazioni lasciando spazio alla creatività dell'acquirente permettendogli di adattarlo ad ogni spazio.

Aggiungendo alla base il piano in vetro, la collezione Modi si completa con il suo tavolo.

Modi comes to be with the will to interpret space inside and outside the house.

It features four modules: the seat, armrest/backrest, corner and glass top, which turn into various configurations giving way to the buyer's creativity and allowing him to adapt it to any area

Adding a glass top to the base Modi collection is completed with his table.

CROUS CALOGERO

About

CrousCalogero is a product design consultancy founded in 2009 by Francesc Crous and Alessandro Calogero after a decennial experience side by side with famous designers and inside big companies design departments.

They explain their method as follows:

"Our way of working is simple: we try to get to the essence of things, eliminating what is superfluous, always with a focus on the human being. We don't like 'sculptural' objects, to admire from a distance. We want our objects to transmit a desire to be touched. Functional quality is a basic requirement we take for granted. On top of it we try to suggest a story, made of memories or sensations, to create that impalpable link between objects and people."

In recent years they strengthen their collaboration with different international design firms. Alongside their professional activity they also teach at the design school EINA in Barcelona.
